## PATIENTS AND FAMILIES

Patient-centred service means ensuring patients receive the best care in exactly the way they need it. We offer **flexible service delivery** to meet the needs of multiple patient profiles, such as **customized protocols** for patients with autism so that it is easier for them to access our services.

We provide **genetic testing** at our Canadian lab to support the patient's healthcare decisions. We are introducing technology to make access to **results easier and faster** (within 48 hours) for better patient care. We strive for the best possible patient experience in all that we do.
