

Transmission of LifeLabs Laboratory Test Results: Paperless Request & Waiver  
**For Medical Office or Physician Office**

LifeLabs currently transmits your results report electronically through your Electronic Medical Record (EMR) or online and also delivers hardcopy paper reports. You have validated the EMR results against the paper reports and have determined these to match. You would like to request that LifeLabs discontinue sending the hard copy paper reports.

A validation for your request will be performed and you will be contacted if your request cannot be fulfilled. Please note that ECG results are excluded.

The below Physician(s) instructs LifeLabs to discontinue sending the paper copy of such results, and confirms that he/she will be responsible for printing any results, as required.

Date of Request: \_\_\_\_\_

Name of Medical Office and Address (or place stamp here):

EMR Vendor	Software	Version
_____	_____	_____

Name and Signature(s) of requesting Physician(s). Please add additional physicians as required on a separate sheet
