Reminders on insurance coverage for p-ANCA c-ANCA and Anti-CCP testing

Dear Healthcare Provider,

We are reaching out to share a reminder regarding the process for completing requisitions for p-ANCA c-ANCA and Anti-CCP testing. When signing requisitions for p-ANCA c-ANCA and Anti-CCP tests, please ensure that they state “insured” on their patient’s signed requisition form, so testing will be covered by the province.

These tests are not eligible for provincial OHIP coverage if they are ordered by general practitioners. To be eligible for any insurance coverage, these private pay tests must be ordered by the appropriate specialists.

Specialists that may order p-ANCA c-ANCA testing in Ontario include Clinicians practicing Pediatrics and all its subspecialties, Internal Medicine and all its subspecialties, Dermatology, Neurology, Otolaryngology and Ophthalmology.

Specialists that may order Anti-CCP testing in Ontario include Clinicians practicing Pediatrics and all its subspecialties, Internal Medicine and all its subspecialties, and Dermatology.

If you have any questions, please don’t hesitate to contact our Customer Care Centre at 1-877-849-3637.

Sincerely,

LifeLabs
