

# Health Care Provider Bulletin

LifeLabs Service Updates 29/07/2025

## CHANGES TO URINE CORTISOL TESTING [ONTARIO ONLY]

Dear Health Care Providers,

**Effective AUG 25<sup>TH</sup>, 2025**, 24-Hour Urine Cortisol will be tested on a new methodology (Chemiluminescent microparticle immunoassay) on the Abbott ALINITY i analyzer. The reference interval remains the same based on the LifeLabs internal method comparison to the current SIEMENS IMMULITE methodology.

The turnaround time for 24-Hour Urine Cortisol will not be affected by this change in methodology.

If you have any questions, please contact the LifeLabs Customer Care Center at 1-877-849-3637.

Thank you.
