LifeLabs Service Updates 02/27/2026

CHANGES TO HEMOGLOBIN FRACTIONATION TESTING

Dear Healthcare Providers,

LifeLabs will update its current instrumentation from Sebia Capillary 2 Flex to the Sebia Capillary 3 Tera. There is no change in methodology as the new analyzer uses the principle of Capillary electrophoresis.

Below is a summary of the changes:

Effective Date	30 Mar 2026
Summary of Change	Hemoglobin A (Hb A) and Hemoglobin D (Hb D) will now be included as part of the reportable hemoglobin fractions Hemoglobin fractions units of measure will change from decimal values to percentages (%) Abnormal hemoglobin fractions will be flagged with an asterisk (*).
TAT	No Changes
Specimen Handling	No Changes
Reference Ranges	No Changes

We apologize for any inconvenience. For questions, please contact LifeLabs Customer Care Center at 1-877-849-3637.

Thank you,

LifeLabs
